Para: Daniel Andres Triana Camacho <dantrica@saber.uis.edu.co>

Dear Ph.D. Student Triana Camacho,

We are pleased to let you know that your chapter has now been published with IntechOpen's Online First service.

Congratulations!

Online First was developed by IntechOpen to allow individual chapters to be published, after review, even before the entire book is ready for publication, ensuring research is made available to the scientific community without delay.

Your published chapter is now searchable and citable by DOI, so you can start receiving citations and downloads immediately. Once the rest of the book is ready, it will become part of the broader publication.

Feel free to reuse your chapter as you like, as the copyright remains yours, share it with your colleagues and peers, and on social media.

You can view your chapter here: <https://www.intechopen.com/online-first/cement-based-piezoelectricity-application-a-theoretical-approach>

Please check your publication promptly to ensure that it corresponds to the final version of your chapter.

Be sure to take this opportunity to order chapter offprints by contacting orders@intechopen.com.

Congratulations once again,

Sara Debeuc
