Your Performance:

READING

In reading, you have reached the highest level of proficiency, C2. You demonstrate exceptional comprehension skills, with the ability to understand complex texts and academic literature effortlessly. Your reading speed and accuracy are outstanding, allowing you to grasp nuanced information and subtle nuances in the language.

LISTENING

You can understand some factual information about common everyday or job related topics, identifying both general messages and specific details, provided speech is clearly articulated in a familiar accent.

SPEAKING

You can understand the main points on familiar matters regularly encountered in school, work and leisure activities. Your spoken language is intelligible but certain mistakes require extra or repeated efforts at understanding, such as pacing, pronunciation, or grammatical structures.

WRITING

While your writing is understandable, a lack of vocabulary does still limit your ability to write, as does lack of knowledge about advanced grammatical structures.

How to Improve:

READING

To continue enhancing your reading skills, you can challenge yourself with a wide range of authentic texts, such as books, articles, and research papers. Engaging in critical reading exercises, analyzing different writing styles, and expanding your knowledge across various genres will further enrich your reading abilities.

LISTENING

Improve your comprehension daily by listening to podcasts, radio shows, documentaries, newscasts, and any other material in English that will increase your exposure to the language. Listen to material that ranges in subject matter to expand your knowledge on various topics and expands your vocabulary. Always use subtitles or lyrics to help you understand.

SPEAKING

Speaking directly with others who have a command of the English language is fundamental for you. Try coming up with your own questions and responding to them out loud while recording yourself.

WRITING

Engage in creative writing daily. This way, you will be forced to learn new words and really ease yourself into the language through the usage of thesauruses and a dictionary (and slang as well).
